Hi Adam,
Hope the email response is a good as the paper version (let me know if you would rather have the paper).

I Support the East Baron Avenue/Millwell Subdivision Connection Path. COMPLETELY

Reasons include:
Safer route for children going to the Pierce Park area schools

Safer route for everyone riding east or west in this NW Boise area as the passages East/West are quite limited. State St is a VERY POOR route for bikers.

Encourage alternate transportation for the future (greener!)

Encourage neighborly interactions by foot/bike activities as it's more face to face than cars

It's the right thing to do!

I would join the meeting if we were in town. Unfortunately, the Sun Valley Jazz Festival overlaps this meeting date for us. Thanks for your efforts to get this trail in motion!

Here's an email in support of the trail from Greg Kelsay, the owner of the property adjacent to the West side of the path on Baron.

Greg,

Would you mind resending the email with your address and tell where your property is located in regards to the proposed path? I'm told that the city may need something in writing with a signature, but I will let you know for sure if I find out that is the case. Thanks again!

Adam

Hi Adam,

Hope the email response is as good as the paper version (let me know if you would rather have the paper).

Our property at 6805/6807 Baron borders the proposed path along the west border (North/South trail section) for about 160 ft.

Nice! Thanks for tracking him down and talking to him Adam! Also, thanks for finding my error on the flyers-yikes-I would not have wanted to hand those out with the wrong date..
